## FORGERY AND PIRACY
PARRY AND CO.
Beg to caution the public that the TRADE MARKS of many of the Firms they represent are PIRATED and by this means SPURIOUS and WORTHLESS goods are foisted on purchasers, instead of the GENUINE articles
The SHAM labels are wonderfully well got up to fulfil their nefarious mission.
Some of them bear a forgery of manufacturer's signature, others have apocryphal signatures, one or two letters being altered in so artistic a manner as almost to defy detection. Whilst many bear NO NAME whatever, but in general appearance closely resemble the authentic labels.
We have taken LEGAL PROCEEDINGS, and trust that the heavy penalties accorded under the Trade Mark Law will put a stop to FORGERY and PIRACY
The following particulars may prevent many from being duped by dishonest dealers as they will enable the purchaser to detect imitations, and insist on obtaining the genuine articles—

**Crosse and Blackwell. Pickles**
See that the well known white and gold arched top label bearing their name and address (21 Soho-Square, London) is on the bottle, and also look for the name and address on top and signature on side of capsule, without none are genuine.
JAMS and JELLIES of this famous brand also bear C and B's name on labels.
FRENCH CAPERS. Legitimate only when C. & B's name and address is found on label and capsule; avoid similar bottles which bear NO NAME on label or capsule.

**Arthur Guinness Son & Co.'s Extra Stout**
BEWARE of a very well executed and most dangerous imitation of the famous HARP LABEL. This even bears a FORGERY of GUINNESS' SIGNATURE as well as PIRACY of the TRADE-MARK.
PIG BRAND STOUT
None is legitimate without the signature of the proprietors (Messrs William Edmonds Jr & Co.) on capsule, their label on side and our RED and WHITE guarantee label as SOLE AGENTS on neck of Bottle.

**Bull Dog, bottling of Bass & Co.'s Pale Ale**
Genuine only when the bottle bears Messrs BASS & Co.'s world renowned RED TRIANGLE trade label on one side, Messrs. READ BROS.'S BULL DOG LABEL on the other and our RED and WHITE guarantee label as SOLE AGENTS on the neck.

**Washington Morton and Alfred Morton & Co.'s**
Celebrated WINES & FINE CHAMPAGNE BRANDIES. Every bottle of the genuine bears their name on capsule, cork and label, and our signature as SOLE AGENTS at foot of the latter.

**Rimmel's Brown Windsor Soap**
Each cake of the genuine has the maker's name moulded on one side and the words SOLE AGENTS PARRY & Co. Buenos Aires, on the other.

**Lea and Perrins Sauce**
The label on EVERY bottle of the genuine WORCESTERSHIRE SAUCE bears the signature LEA & PERRINS and OUR name amongst the list of WHOLE SALE AGENTS.

**Colman's Mustard, Corn Flour Blue, Starch**
None of these are genuine unless they bear the BULLS HEAD Trade Mark. Inferior goods packed and labelled in a manner calculated to deceive, are freely offered in the most shameless manner. Ask for and see that you get J & J COLMAN'S genuine productions which all bear their name, Trade Mark BULL'S HEAD and our RED and WHITE guarantee label as SOLE AGENTS for this Republic.

**Angostura Bitters**
The market is INUNDATED with immitations, which are WORTHLESS and INJURIOUS. Every bottle of the genuine article bears on the neck our RED and WHITE guarantee label as SOLE AGENTS.

**Epps's Breakfast Cocoa and Chocolate**
Every packet of the legitimate article bears our RED and WHITE guarantee label as SOLE AGENTS.

**Eugene Clicquot's Champagne**
Each bottle of this renowned brand bears the registered trade label of the proprietor and our SIGNATURE LABEL AS SOLE AGENTS.

**Old Tom Gin**
Every bottle of BOORD & SON'S celebrated cordial bears their signature label and our RED and WHITE guarantee label as SOLE AGENTS.

**Invalid Port**
GREAT ATTENTION and care have been dedicated by Messrs BOORD & SON to this SPECIALITY, and we can confidently recommend it.

**Fine Pale Sherry**
Every bottle of BOORD & SON'S well know white label bears also our RED and WHITE guarantee label as SOLE AGENTS. As an agreeable light ECONOMICAL dinner wine, it is not to be excelled.

**Lorne Whisky**
Has an enviable reputation all over the world: every bottle of this PURE HIGHLAND WHISKY bears our RED and WHITE guarantee label as SOLE AGENTS.

**Red Heart Rum**
Justly celebrated for its great age, purity and other excellent qualities and specially recommended as a preventive for CHOLERA, DIARRHŒA, DYSENTERY, COLD &tc. is genuine only when capsules are stamped and the corks branded HENRY WHITE & Co. and when each bottle bears our RED and WHITE guarantee label as SOLE AGENTS above the Red Heart label.

**Real Hollands Pig Brand**
Imported by us and guaranteed of superior quality. Each bottle bears our guarantee RED AND WHITE label.

**Keiller's Lozenges, Drops and Confectionery**
So justly appreciated here, bear on every tin, packet, bottle, &c our RED AND WHITE guarantee label as SOLE AGENTS.

Every packet or drum bears our SPECIAL LABEL as SOLE AGENTS.

**Sublime Tuscany Olive Oil**
SAMUEL RAE & CO, LEGHORN. This famous brand is guaranteed a PURE article every bottle and tin bears our RED and WHITE guarantee label.

**Nelson's Improved Brilliant Gelatine**
A superior and economical preparation for jellies, blanc mange, soups, gravies, &c. Jellies made with the greatest facility in a few minutes possessing the whole of the nutriment without the impurities of the calvesfeet. Each genuine packet bears the signature of GEORGE NELSON and our RED AND WHITE guarantee label as SOLE AGENTS.

**Bumsted's Royal British Table Salt**
This refined article is obtained from natural and pure brine springs and is vastly superior to the ordinary quality. Each bottle bears our RED AND WHITE guarantee label in the CENTRE of that of the manufacturer.

**Anglo Bavarian Ale**
VIENNA 1873, FIRST CLASS PRIZE. GOLD MEDAL PARIS, 1878. To those accustomed to drink GERMAN ALE we strongly recommend this light and pleasant beverage.

**Champagne Cider,**
HENLEY & SON'S celebrated brand Each bottle bears the RED AND WHITE guarantee label as SOLE AGENTS.

**Tea.**
We guarantee all our brands PURE and of the VERY BEST QUALITY, and caution the public against receiving any boxes that have been OPENED and the LEADS CUT, as we know that our empty packages are REFILLED WITH INFERIOR MIXTURES and offered for sale as genuine. Each box bears our RED AND WHITE guarantee label.

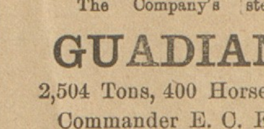

**Attention.**
Notwithstanding the HEAVY PENALTIES inflicted by the Trade Mark Law, individuals will persist in FORGING the signatures and IMITATING the Trade Marks of CELEBRATED AND WELL-KNOWN manufacturers NON-RESIDENT in this country, whilst they are very chary and frightened of doing so in the case of a firm living on the spot. We therefore strongly advise the public to take the goods for which we are Agents ONLY when they bear OUR LABELS.

### RESISTENCIA COLONY.

The cruelty of the Spaniard towards the Indian is the history of South America. Since the days of Padre Las Casas the treatment of the 'Indigina' by civilized man in this hemisphere has been a revolting chapter. The Indians in this country are now all but exterminated. A couple of generations more and there will not be a tribe found throughout the Republic. Even the warlike Guaranis have become so insignificant that their language, which was once the dialect of a large portion of this Continent, hurries to an extinction as rapid as the race itself. There seems to be something inscrutable in the fate of the Indian; civilization and progress appear to claim them as their first victims; they perish from being either too warlike or too docile, and although the records of the Misiones attest to an Indian prosperity and industry whose vestiges still attract our admiration, not even the training of the Jesuit Fathers for over a century could arrest their doom, which the cruelty of the Spaniards accelerated.

Whoever reads attentively the chapter which we give hereunder cannot fail to see that the cruelty of the Spaniards in the days of Pizzaro and his followers, which blackened the pages of the history of that epoch, has been inherited by their descendants, who in the long lapse of time have never raised their standard of humanity, generosity or public morals one inch. If in the struggle the Indian has perished, the Spaniard has certainly little to boast of; and the thrill of honest indignation that every one will feel on the reading of the subjoined paper will instruct the Government as to the course it should adopt against its employees, who merit the avenging curse of an oppressed, ill-treated and expiring people. Nothing that can be advanced in defence of this Comisario will justify the Minister in allowing him to hold the office for another hour; and it is the intrusting of authority to the hands of such people that injures the character of the Administration and checks the prosperity of our colonies.

Mr. John Dillon, our excellent Commissioner of Immigration, should not allow the affairs of a colony to be jeopardized by improper and irresponsible managers. There are plenty of good and experienced men willing to accept the post, and we much regret to say that of late the complaints from many of the colonies that reach us show that sufficient care is not taken in naming parties to this all-important trust. A good, kind, upright and industrious man appointed by the Government to manage the affairs of a colony is as certain to lead the colonists to prosperity and independence as is an improper person sure to ruin everything and bring disgrace on the whole country.

The Press was never truer to its trust in holding up to scorn the outrage of which the following paper tells. We admire the pluck and bravery of the murdered Cacique as much as we despise the brush that paints civilization on his executioners. Here we have a quiet, industrious, domesticated tribe of Indians that lived by the sweat of their brow, supplying Corrientes with many of the products of the soil, exterminated at an hour's notice. Well may the savage laugh at our tenets and our civilization when such monstrous injustice passes as the law of the land. Let us hope that Mr. Dillon will bring his influence to bear in punishing the offenders and naming proper parties to administer the affairs of a colony planted on the outposts of our regretable civilization.

The following is the paper referred to:—

Corrientes, January 4, 1880.

My Dear Friend,

These few lines will inform you of the bad treatment suffered by some poor Indians in the neighborhood of the Resistencia Colony.

For a long time past, a small tribe of Indians, called the Villelas, were considered Christians, owing to the fact of their being regularly baptized and in such proximity to this city. These poor fellows earned their living humbly and honestly by buying horses, which they sold to far out tribes. They always exhibited a certificate of legal purchase to the Chief of Police here to be signed. But Comisario Martini, in the most arbitrary manner, lately took their horses and tore up the documents, without the slightest regard for either property or justice. The Cacique Vilelas used strong language against the Comisario and this abuse; one of his subordinate Indians, who had been always hostile to him, hoping to reap favour from the Comisario, immediately attacked him, and was killed in the scuffle by his chief. The Comisario seized Vilelas and put him in prison, making him endure a most cruel treatment; one way or another the Cacique managed to escape, and the Comisario and ten armed subordinates set off in hot pursuit. The Comisario and the sergeant, who had good steeds, arrived first at the 'toldos', and intimated immediate surrender to the Indians, who quietly submitted, with the exception of their Cacique, who resolved to defend his life bravely. The sergeant fired off his revolver at Vilelas, but the ball missed; the Cacique fell on him like lightning, burying his knife in his body three times. The Comisario and Major Romero fled, but the former fell from his horse, receiving a light stab from the Cacique, who turned to defend himself from one of the soldiers. The Indian Chief had three bullets in his body already, but the struggle between the two men was terrible—Vilelas was killed.

The Indians who had all the time passively looked on were arrested. Four of these unfortunate fellows could not walk, and were summarily killed on the spot; one was tied alive to the tail of Lorenzo Venturini's horse, and dragged off at full gallop—Lorenzo V. then cowardly shot him.

The remainder were tied and imprisoned in the Comisaria, two Indians remaining in a 'galpon'; the latter escaped and were seized again on the banks of the 'laguna', where, according to the order of Comisario Martini, their throats were cut. The 'brave' Major Romero made a present of their clothes to one of the soldiers.

The greater part of the colonists witnessed these acts, but fear strikes them dumb—and, further, they are not allowed to leave the colony, lest they should eveal these horrors.

Fontana culls the pleasures of the fleeting hours with the charming and romantic friend of Holofernes,—and holds his tongue also.

In my next I will talk of the Juez, the balls in the Comisaria, and the price of Vermouth.

Yours,

*P. G.*

## The Teniers's Mails.

London, Dec. 24th.

Lord Lytton yesterday telegraphed several times to the India Office, conveying amongst many details a report from General Roberts at Cabul that skirmishing with the enemy had taken place on Monday. General Bright reported the continued advance of reinforcements, that all was quiet at Piezran, and that convoys were passing thence to Jugdallak.

According to the last night's *Politische Correspondenz* the Greek Commissioners have written to inform the Porte that if neither a sitting of the Turco-Hellenic Frontier Commission has been held, nor any positive proposals have been made by the Porte by Sunday next, they will be compelled to regard the negotiations as offering no prospect of a settlement, and to assume that a result satisfactory to Greece is unattainable by the course hitherto pursued.

The military law fixing the strength of the army, and the bills for the prolongation of the Treaty of Commerce with Germany and France, and the admission of Bosnia, Herzegovina, Istria, Dalmatia, and Brody into the Austro-Hungarian Customs line, were gazetted yesterday after having received the Imperial assent.

An official bulletin, dated Cannes, 21st inst., was published yesterday at St. Petersburg, stating that the Empress of Russia had passed a less satisfactory night than on the 20th.

M. de Freycinet, our Paris correspondent telegraphs, has declined to undertake the formation of a new Ministry, and M. Waddington has been requested by the President of the Republic to reorganise the Cabinet, but has asked twenty-four hours for considering the proposition. Meanwhile he has suggested that the task should be intrusted to M. Léon Say.

Last night the Lord Mayor, who was accompanied by the Lady Mayoress and the Sheriffs and Under-Sheriffs, presided, at the Cannon-street Hotel, at the annual distribution of prizes awarded to the 1st City of London Volunteers for skill in engineering and shooting.

The cold continues intense through out France, except on the coast. On Sunday night the thermometer showed 30 deg. Farenheit of frost in Paris and at Charleville, 23 deg. at Belfort, 21 deg. at Lyons. and 18 deg. at Mans. Wolves have appeared as near Paris as the Cotterets and Laigue forests, and in the vicinity of Compiegne. The Oleron and Marannes oyster beds have already suffered to the extent of 1,000,000f. from the frost. An anonymous donor has forwarded 5,000f. for distribution among the 100 country postmen most exposed to the severity of the season, and the Chambers have voted 500,000f. to the postmen on the same ground.

Last evening. at a few minutes after 7 o'clock, the weather in the metropolis underwent another sudden change. The atmosphere as the moon shone forth, was somewhat hazy, caused by the wind shifting from the westward to the N.N.W. At 8 o'clock the air was charged with a dense yellow fog, rendering the pedestrian traffic so dangerous that people had great difficulty in finding their way home. In the Farringdon-road the various crossings leading to the New Meat-market, the Farringdon-road Railway Station, and the main thoroughfares were partially blocked by waggons and carts loaded with goods, and all kinds of artificial light had to be procured in order that the drivers might see their way. As the evening advanced men and boys were seen bearing links and lighted torches, especially on the Surrey side of the river, where the fog was so thick that a stop to vehicular traffic was rendered necessary for the safety of the public. Lines of cabs, omnibuses, waggons and vans were drawn up near the Circus, where they remained for several hours until the fog slightly lifted. At the West End, and especially in the Strand, great inconvenience was caused by the fog. Ladies and gentlemen who had attended the theatres were kept waiting for their carriages up till midnight, caused by the coachmen having lost their way in the fog. The police stationed at the principal crossings did their best in directing parties who had lost their way while proceeding to the Metropolitan Railway stations. The omnibus traffic from the Elephant and Castle to the Metropolitan Railway stations was suspended altogether. A large number of street accidents have been attended by the surgical staff at the metropolitan hospitals, caused by persons being knocked down by horses. Such a dense fog has not been known in London as that which occurred last night for the past seven years.

Our Vienna correspondent telegraphs that it is expected that the visits of Count Schouvaloff and Lord Dufferin to Varzin will be followed by weighty results. Prince Bismarck is believed to have impressed upon Schouvaloff the importance of coming to a satisfactory and lasting understanding with England with regard both to Eastern-Europe and Central Asian affairs. The arrival of Lord Dufferin at St. Petersburg is also considered as likely to influence very materially the relations of the two Governments.

Although not officially certified, the numbers stated to have been polled at thr Sheffield election were. For Mr. Waddy, the Liberal candidate, 14,062; for Mr. Wortley, his Conservative opponent, 13,584.

Mr. Parnell, M.P., accompanied by Mr. John Dillon, of Dublin, left Queenstown yesterday morning in the Cunard steamer Scythia, for New York. In the course of a speech made to a deputation of the Cork Farmers' Club, which waited upon him before he embarked, he said he should endeavour to put the Irish cause truly before the American people, and felt assured that the people, when they knew the truth, would be, as they always have been, generous and sympathetic.

In the Stock Markets yesterday quotations generally showed no special transactions, being very limited. The funds were unaltered, at 97⅛ ¼ for money, and 97¼, ⅜ for the account, but some of the home lines improved ¼ to ⅜, the chief movement being in Caledonian. The variations in foreign bonds comprised a rise in Egyptian and a decline in Argentine and Russian. American railways were little dealt in, but Atlantic and Great Western First Mortgage advanced. On balance 35,000 in gold was received at the Bank.

We have received the following from the Indian-office:—

From Viceroy, Dec. 22:—"Gen. Bright reports movement of reinforcements all along line. Wing 25th British has reached Lundi Kotal; 17th Bengal Cavalry reached Basawal 20th; 22d Punjab Infantry reached Jellalabad yesterday, and has gone on; 12th British Regiment and four guns reaches Jellalabad to-day. Gough marched yesterday for Cabul; reports his communication harassed by Ghilzais, who were driven off with loss. Asmatullah is reported wounded; his followers appear deserting. Doran reports rumoured gathering of Mohmands about Daka, which has accordingly being reinforced. Possible disturbance about Daka, otherwise Mohmands, Afridis, Shinwarris al absolutely quiet."

### THE STATE OF IRELAND

The Lord Mayor of Dublin has convened a public meeting of citizens for Wednesday next at the Mansion-house for the purpose of forming a central committee for the relief of distress. This is the first step which has been taken on the part of the public towards practical and independent action to meet the crisis; but until the appeal of the Duchess of Marlborough appeared in *The Times* no one proposed to raise a voluntary fund to supply the pressing necessities of the indigent classes. Her Grace has pointed out the shortest, most direct, and most effective way of bringing succour to them, and it may be hoped has aroused a more earnest and general spirit of personal benevolence in the country. The Lord Mayor of Dublin has been the first to respond on the part of the public to her Grace's call for prompt action, and his example will, no doubt, be followed in the provinces. Following close upon her Grace's letter is one from Mr. Mitchell Henry, M.P. to the Lord Lieutenant. His description of the state of the people in the district around his residence at Kylemore is deplorable. He says:—

"The people have neither food nor clothes, nor credit to buy them, nor work to earn them. Blank despair is settling down upon the district, and the efforts of the few in this locality who can give a little employment are as but a drop in the ocean of misery around. Fuel is more plentiful than it was, for the unprecedented spell of dry weather has enabled turf to be saved that seemed to be lost, and, except in particular spots, there are fires in the houses which some weeks ago appeared destined to be without. This is the only redeeming feature in the picture, and it is partial. It is useless to minimize the matter or to suppose that things will right themselves. Crime, the offspring of despair, is showing itself in this part of the country, which hitherto, without exception, supplied fewer criminals than any other part of Her Majesty's dominions."

The Government, he says, knows the sad condition of the country. It has had warning ample and timely. In the whole district from Leenane round the coast to Tully, Streamstown, Omay, Clifden, Roundstone, Carne, and Galway the kelp industry is gone, work there is none, and he asks what is to become of the country. There are hardly any proprietors able to pay to the Board of Works 6½ per cent for a drainage loa, and the trifling concession which has been made in postponing the repayment of interest and principal for two years is wholly useless in his district. "It is, moreover," he thinks, "a mockery to offer work to men and to require them to walk miles to and fro over the mountains in the depth of winter." No further relaxation, he understands, can be made in the conditions required by the Board of Works, and it is doubtful whether, in the cir-

cumstances, a single loan of any magnitude can be taken His conclusion is as follows:—

"The first want here in the west is food and clothes, and they ought to be paid for by reasonable work, regulated on common-sense principles. Private charity is unable to cope with the state of things, and the responsibility of the Government will be heavy indeed unless it sanctions some substantial measures of relief. I will say nothing of the eastern part of the county, because I have not the same personal knowledge to guide me as I have here. There are many good landlords in the county of Galway who have always been the friends of their tenants, and who are now instituting labour works for their benefit. There are also bad landlords who will do nothing; but it is very satisfactory to find that the Government itself is instituting improvements in the Shannon such as have so long been advocated in and out of Parliament. These works are urgently needed; but I beg to draw your Grace's attention to the fact that here we have no landlords to institute works, and not a cheering word is said, or a promise held out, to keep the inhabitants of the wild West from despair."

This passionate appeal must excite sympathy.

Up to last night the Lord Mayor's Fund at the Mansion-house, started in answer to the Duchess of Marlborough's appeal, amounted to nearly £1,000. Of this sum, Messrs N. M. Rothschild and Sons contributed the handsome donation of £500; Mr Henry Edwards, M.P. (for Weymouth), £100; 'H. E.' £100; 'J. W.,' £80; Sir Thomas Waller, £20: Mr James Whitehead, £10 10s; and Mr Bagshawe, Q.C. £10. An account has been opened at the Bank of England in aid of the fund.

## EDITOR'S TABLE.

The mails from England by the Lamport & Holt steamer Teniers were delivered yesterday. Dates to Christmas Day 1879. The great news is that the Tejedoristas have won the election at Sheffield, the polling resulting in 14,062 votes for Waddy (Liberal), and 13,584 for Wortley (Liberal-Conservative). Considering that Sheffield is a Liberal stronghold, the majority of only 478 is considered by the Tory organs as equivalent to a victory for their party. There is a variety of general news in the papers. Thom, the Directory man, is dead aged 79; also Mr. Henry Warren, President of the Painters in Water Colours Society, aged 85. London has been visited by an extraordinary fog which threw the whole metropolis out of joint to such an extent that ladies could not get home from the Opera and had to sleep in their 'palcos.' (A subscriber told us yesterday that a London fog once obliged him to sleep all night in an omnibus at Bayswater) Mr. Parnell, M.P., has gone on a tour to the United States. Baron Rothschild gave £500 to the Duchess of Marlborough's Irish Relief Fund. The export of gold from Australia has fallen off tremendously, and there is a general 'let down' in living, rents, etc., in London. A quinta at West Brompton can now be had cheaper than one on the Flores Road and at Earlscourt and Lilly Bridge rents have fallen 75 per cent. The cold in London is terrific—Thames half frozen and all the ladies adopting 'ponchos' trimmed with fur as the fashionable garment; the swells have taken to Bryan O'Lynn's costume—a sheepskin suit with the woolly side in, imported from Russia. Things in Afghanistan were considered safer, and anxiety had abated. In Paris the cold is greater than in London—not a wheel to be seen in the Queen of Cities, and all the vehicles, public and private, turned into sledges. The political prophets say that some tremendous European convulsion is certain to succeed this terrible winter. It has always been so.

Ba! The member of our staff who won the lottery prize on Wednesday, being in a state of justifiable excitement at the event, mistook B A. for B.O. in his 'copy,' and made us say in yesterday's on 'Change that the receipts of the 'Banda Oriental' (it should have been 'B. Ayrean.) Custom House were 702,000 pats. since the 1st inst. We fear poor B.O. will have to be discovered over again before its Custom House gives such a figure in three weeks.

We perceive that our esteemed colleague *La Nacion* is publishing a very nice translation of the highly interesting lecture delivered some months ago before the English Literary Society by Mr Leighton Jordan F.R.G.S., on the Tone of Science and Vis Inertiae. It is pleasant to see our Argentine colleagues turning their attention from politics to something more ennobling and more profitable. We want more of the tone of Science and less of the eternal tune of politics in the native papers. It is a comfort that one election (that at Sheffield) is over; the next one will be for President of the Argentine Republic. We still believe in the White Hat, and remark a great increase in that party on 'Change.

The telegrams from Jujuy convey the impression that things are getting more 'mixed' than ever there. There has been an election up there under the auspices of the National Commissioner, or Intervener, but who has got in, or who has been put out, or whether Governor Torino is still in prison on dry bread and cold water, or again in his Government House, we can not make out. Politics in Buenos Ayres require deep study to understand, but we would defy Beaconsfield, Bismarck and Gambetta combined, with Baker Pasha as Secretary, to make anything of politics in the Interior of this Republic. 'Hemos dicho.'

The gunboat Parana has not started for the Guano islands yet. The papers say she will weigh anchor on Saturday without fail, and the Uruguay follow her next week.

We understand that Mr Francis Carulla, C.E., has been commissioned by the National Government to go to Europe to purchase all the necessary machinery for the new Gunpowder Factory about to be erected. There is a deal of money being spent just now in gunpowder. The Tyros Nacionales are not satisfied with the eight shooting butts they have at Palermo for Sunday ball practice, and have petitioned for half a dozen more; Signs of the times.

The Belgrano Tramway Company have made a capital move in issuing return tickets at $5 m|c. A drive to Belgrano and back these delightful summer evenings will be a boon to the families of the city. It is cheaper even than the round jaunt to Almagro for 2 m|c. We suppose the Flores Tramway Co., will be the next in this cheap drive line, which will prove a very profitable one if liberally worked.

To-night at 7.30 p.m. a meeting will take place in the rooms of the Club Catolico, Piedad 142, convened by the Rev. Kenelm Vaughan, with the object of making a public statement of the manner in which the funds collected some years ago for the propagation of the New Testament were laid out. He has been compelled to take this step, as some persons have gone so far as to accuse him of misapplying the money. At the meeting he will answer the following questions: 1. What sum of money was collected in the Argentine Republic for the propagation of the New Testament? 2. What did he do with that sum? 3. Where is that sum now? 4. Where are the books? The Rev Mr Vaughan especially invites his countrymen to attend. We, for our part, must say that we consider this gentleman above all aspersion, as it was well known that the funds he deposited in the Popular Argentina were totally lost.

Peaches and 'pomitos' are the wares of the day. There is an enormous business doing in both. The markets are inundated with peaches, and every second shop in town has 'pomitos' in the windows. Yesterday a country-dealer bought in one shop 20,000 dozen of 'pomitos' for a camp town—Pergamino, we believe. It is shocking to think of all the money which is wasted annually in this way; it would make all the poor in the country independent for life if bestowed on them.

The French and Spanish communities are still fraternising to the top of their bent, and Premier Canova's cavalier conduct to the French Admiral at Madrid has, very properly, not been allowed to disturb the 'entente cordiale.' The next move will be on Sunday next, at the Colon Theatre, in the shape of a grand performance for the Murcians by M. Verneuil's talented company of French players.

It is announced that the local Board of Directors of the Southern Railway are urging the London Board to make a general reduction in the freights and fares now charged on that line. It is to be hoped the London Board will take the advice of their colleagues on this side, as it is in every way good, and the change proposed is called for.

The new steamer Cosmos, to run between this port and Montevideo, will be here shortly. We hear she is a marvel of luxurious accommodation, with the electric light all through her.

Professor Guzman, said to be the best music master in Chile, is now in this city: he gave an opening concert on Tuesday night, and others will follow. The Professor made a very favourable impression some years ago in Paris; and the Parisians are very good judges of music, although, perhaps, not so 'sobresalientes' in this particular as they undoubtedly are in so many other things.

Our camp readers will be very glad to hear that the Provincial Bank contemplates starting several new branches in the country towns. If so, it will have lots of new customers. No one but a candidate for Bedlam would keep money in his house in the camp now-a-days if he could avoid it, the Rural Police being so woefully inefficient, and the rural robbers so decidedly the reverse.

The juvenile generation of Flores may be interested in learning that a benefactor of youthful humanity has sent a cartload of toys to the Bazaar now going on there; and although some of the horses, dolls, carts, whips, whistles, drums etc would be a dead bargain at $100 each, the Committee have resolved to sell them all at a uniform price of five paper dollars. A vote of want of confidence may fairly be passed in the nursery against any Flores papa who hesitates about stumping up this truly miserable sum.

Electioneering in this favoured land is a truly funny business. A Chivilcoy colleague has let a terrible cat out of the bag. It appears that a very large proportion of the scrutineers of 'mesas', recently nominated, have been dead and comfortably buried for years past!! This is a deeply affecting state of things. In Dublin an electioneering difficulty of a somewhat similar kind arises at every election: No freehold voter of that ancient city has been known to die for the last three hundred years. At every election there they are (Tories to a man), and the efforts of the Liberals to prove that they are all dead and gone for years and years might as well be directed to the removal of the Rock of Cashel or the Great Gun of Athlone.

The *Patria Argentina* says that General Grant, ex-President of the United States, will shortly pay a visit to this country, its authority being a British merchant who received the news from a correspondent in New York. If the B.M. gets any further advices on this subject we hope he will kindly share the news with the *Standard*. We wish General Grant would come here; fun was never seen in Buenos Ayres till such a welcome visitor arrived. During his stay our politicians might take a few lessons from him, if he had spare time and would condescend to give them.

The *Operario Italiano* is now publishing Zola's famous novel 'Nana' in its feuilleton.

The last bull fight of the season will come off at Montevideo on Sunday next, when two Spanish bulls and goodness knows how many 'mancarones' will be immolated. It may be uncharitable, but we cannot help thinking that if by any chance the bulls' horns were productive of more funerals amongst the men in the ring, these brutal exhibitions would lose their charm and gradually die out.

There will be a grand funeral service at the Merced Church on Monday next for the late Dn. Gervacio Posadas, ex-Post Master General of the Republic.

We read a report of a tavern brawl in Calle Uruguay in which several men fell on one 'who was sitting round a table!' and nearly beat his brains out. This beats the Connaught Ranger who captured 3 Frenchmen at the battle of Salamanca and when asked how he managed it single-handed, he said, 'I surrounded them.'

We call the attention of racing men to the advertizement in another column about the Autumn meeting at Lanus. The entries will be opened to-morrow (Saturday) evening, at the Minerva, No. 76 Calle Florida, at 8 o'clock.

There is nothing, fresh or stale, from Montevideo. The Government has accepted the polite invitation of Buenos Ayres to be present at its Exhibition next year. The people are all up to their chins in Carnival preparations. The rumours of coming revolution in Banda Oriental, which the Buenos Ayres papers are so busy circulating, are simply laughed at in Montevideo.

The only news in the Rosario papers is that the 'choppes' now sold in that city produce the most dolorous 'pronunciamientos' in the stomach, and people are afraid even to look at a glass of beer unless they see the bottle with Bieckert's or Hammer and Peltzer's name on it. Months ago our wide-awake correspondent 'W. P.' referred to Rosario beer as simple rat poison.

## NEW YEAR'S GIFTS.

To the Editor of the *Standard*.

Sir,

Seldom, if ever, has it occurred to me to object to a New Year's Gift, presented either to myself or others, but when one is presented to the Chief Magistrate of the Nation, in the form of a letter from one holding a high position, it merits public attention and invites criticism.

In Mr. Dillon's recent letter to the President he says—'Y.E., doubtless, has often heard that when the same kind of seed is constantly employed wheat deteriorates. On the banks of the Nile they use the same kind of seed they sowed 3,000 years ago, yet the wheat is always the same. This is a subject for investigation that might prove as prolific as the Nile itself.'

Your correspondent 'A. R.' says truly that it is not a very difficult question to solve. The sublime wisdom of a merciful Creator has commanded mankind to be fruitful and multiply and replenish the earth and subdue it. This replenishing evidently was in order that the land should bring forth sufficient nourishment for all. Has Mr. Dillon forgotten the seven years of dearth in the land of Egypt, and when all the land of Egypt was famished the people cried to Pharaoh for bread (see Genesis xli, 47, 49, 53, 57.) Coming a little nearer our own time, has he also forgotten Liebig, Thudechum, Voelcker, Alderman Mechi, Lawes, Hoffmann, Witt and a score of others who have proved it satisfactorily by history, by analysis and by innumerable experiments sufficient to refute Mr. Dillon's important note to the President on New Year's Day.

The neglect of agriculture is the ruin of nations. History shows not less plainly the baneful consequences of not returning to the soil the minerals exhausted from it in gathering harvests.

The basis of human life, the very root of all human society, is the capacity to produce food in such quantities that a surplus of it may be exchanged for commodities resulting from the labour of other people unable to produce food. The capacity to produce food must be rendered permanent by a strict observance of the laws of nature regulating vegetable life, the knowledge of which is the basis of agricultural science.

The first and most important of these laws is, that we must return to the soil the ingredients we take from it in gathering our crops. The atmosphere furnishes the nutritive elements and the soil the minerals, out of which vegetable fibres, vessels and structures containing food are built up. Without these mineral ingredients no harvest can possibly flourish.

The sources whence the land is supplied with water without artificial aid are the Nile, Euphrates, Ganges, Mississippi, &c. The Nile, which flows from the Jibel Kumbri Mountains, begins to rise in June, and by the middle of August attains an elevation of 24 to 28 feet, the inundation flooding the valley of Egypt for a width of 12 miles. The Ganges flows from the Himalayas, rises 32 feet from April to August, and creates a flood of 100 miles wide. The Euphrates flows from Mount Ararat and rises 12 feet from March to June, and covers the Babylonian plains &c.

The annual inundation of the Nile covers the soil with black sediment called by the ancient Egyptians 'Chemi.' This annual addition of new vegetable soil (the Chemi) being deposited on the top of a previous fertilizer, is the very essence to produce vegetable life, and obeys the divine laws and fully corroborates human-framed ones. The deposited mud from the Nile, some 80 to 85 grains per 8 oz. water, contains the essentials to vegetable life (see Professor Johnston's Analysis). With regard to the seed being the same is an error; each year it is changed by the new vegetable soil (or blood) giving regenerated life to it, precisely as stock-breeders introduce new blood, the original having been, as it were, worked out from the want of the fresh fertilizer, as with the wheat, both laws being the same.

It would be equally tenable to assert that the Argentine cattle are all bred from the same stock, and that no degeneration is apparent. If the Chief of the Immigration Department would only follow me round some of his pet colonies, I think he would return a wiser man; and, if this is not perfectly clear, I am prepared to make it so in my next, and I endorse every word penned by your former correspondent A. R., and

Remain, Sir,

Yours truly,

B. R.

The gold market ruled weaker and the Cedula market steadier than yesterday; prices for cash opened at 31.80 and closed at 31.75, and for the end of the month over a quarter of a million of patacones sold at 31.80. Sales for March made at 31.90.

Cedulas grew very firm, due to some cash enquiry for the stock to pay off mortgages; prices opened at 82¼ and closed at 82½, and it is hinted that for the end of the month many are oversold.

National Bonds advanced to day 2 on last sales, closing at 80. It is considered very strange that neither the Bank nor Dr Plaza, Minister of Hacienda, have any telegrams, giving prices. They say on 'Change that on 19th inst. there was a reaction in the stock on the London market.

The first telegram posted on the Bolsa was to Messrs Samson & Co., agents of the Allan line, announcing the arrival of the Canadian at Havre on 19th inst; she left here on 12th December. The Bessel from Havre arrived at Montevideo to-day with dates to 25th Dec.; her mails come up to-night.

Freights rule very firm and plenty of cargo offering both here and in Montevideo. 1,000 bales engaged there yesterday for Paxo for Havre and Dunkirk at 30 fcs. and 10 o/o, and the Brit. barque Nova chartered there to load for New York, reserved rates.

The Teniers has brought out £10,000 in sovereigns to Messrs Mallmann & Co.

The sale of 20,000 ar. good wools in Montevideo is reported at from $f.4 to 3.60. Market rules very active, and season proving a good one for the barraqueros.

We had advices to-day from Carmelo, Banda Oriental, everything doing well, the farmers have had a good year, several sales of sheep 'al corte' at 10 rls, and cattle 'al corte' at 7 dollars, and fat novillos for saladero at 15 gold dollars. The present has been rather a good season for the Banda Oriental.

In our telegram column will be found fresh telegrams received to-day from Europe, they do not run well with our message of yesterday, but both come to the first houses in this city.

The gold sales were:—

Exchange ruled brisk enough; nearly all the German houses drew to-day at 4.24 on Antwerp, 5.23 on France, and 5.22 on Paris, and 49¾ and ⅝ on London. Over 300,000 fres passed at 5.24, and in paper at 4.14.

The sale of Mr Marcenano's house in Calle Paraguay by the Provincial Bank was announced, 17x70, a splendid mancion, cost a few years ago 760,000 m/c, sold for 382,000 m/c.

This afternoon another house of the same owner in Calle Corrientes alongside Teatro Opera 9½x68 sold for 405,000 m/c. Ricardo Gowland buyer.

There was a brisk business in freights, and large engagements for Antwerp at 30s/ and 10 per cent.

There was great talk on 'Change this afternoon about some fresh news from the Boca, to the effect that the Custom House authorities had discovered some great smuggling going on, amount involved said to be large. It is probable that in a few days we shall hear more about it.

Our special Boca reporter gives the following:—

"Amer. barque D A Brayton, from Drysdale's, passing down empty to new canal.

"Canadian barque Loraine dropped down from Barraca de Peña to in front of Boca Railway Station, where she loads bran for Brazils.

"Swedish barque Ingeborg passing out with wool.

"Dutch barque Albertina Meyer also passing out."

Messrs Baltar and Quesada's live stock auction held yesterday, gave as follows:—
Normandie bull, 15,000, Villa Nueva.
Hereford cow, Green Mantle, 13,500, L. M. Somoza.
Do do, Green Sleeve, 13,000, L M. Somoza.

The Teniers's mails bring much fresh news. All the English wool markets are firm and home wools have advanced as much, if not more, than foreign wools; woollen manufactured goods have also risen. The most remarkable feature in the home market news is that what never before occurred in Europe has happened this season, namely that bad crops have no effect whatever on the wool and cotton markets; formerly a bad harvest always meant low prices for wools and cottons, but this year has proved the reverse. The rate of Exchange in New York on London, which is the great barometer of both markets, has dropped somewhat and marks 4.80½, whilst the export of gold from Australia to England shows such a great falling off as to attract notice. Trade in general shows a great revival in England, and all the shipyards are busy. The liquidation of the Glasgow Bank is now nearly closed, paying 20s in the pound without interest, which is indeed a triumph of commercial probity. All the London papers publish flattering comments about the River Plate and the opening of the busy season as sketched in our packet review.

Advices from San Pedro and San Nicolas are most favorable; the camps are in splendid condition, it having rained everywhere; the sheepfarmers are all busy curing their sheep. There is always good demand for sheep and cattle for new estancias a little outside, but the question is where to find the stock, as in general the estancias are not now overstocked, and so many are now fenced and prospects for the autumn months being good, the farmers are not in a hurry to sell save capones for local consumption, which fetch from 40 to 50 m/c. If tallow rises then better prices may be expected. The following large sheep purchases are reported by a well known firm in San Nicolas (Terrason & Co.):—

10,000 sheep 'al corte', Olleros, near Pergamino.
10,000 sheep 'al corte', Donovan, Rosario.
18,000 " Pavon, Patricio.
5,000 picked sheep, various estancias.

Prices paid from 30 to 60 m/c. This is the largest purchase of sheep we have had to report in this market for some time; the 10,000 sheep from Donovan were bought at 30 m/c, and a few days after the same owner sold remainder of flocks at 35 m/c to a farmer of San Pedro. Many buyers offering for picked sheep at 45 to 50 m/c. and a few sellers. In the port of San Nicolas there are eight foreign barques loading wool &c. for Europe and two discharging salt.

A subscriber from Rojas informs us that the camps out there are in splendid condition, and that it is strange so few of the Irish sheepfarmers avail of these fine camps and at such low prices. There are three Irish estancieros whose lands adjoin and who have recently started new estancias up there

25 square leagues, which is in fact a principality and splendid property; all these lands, however, require a heavy stock of horned cattle before flocks of sheep are put on, although in summer they are excellent lands for sheep. A new town called Colon about 10 leagues from Rojas is being started, but some farmers complain greatly of the present Juez de Paz who actually seized 130 sheep belonging to an Irish widow to pay for the surveying of chacra land with which she has nothing to do; a petition to the Governor about this truly scandalous business has been presented.

The Teniers brings the following important advices from London:—

"There was a somewhat better discount demand to-day, and the rates for three months' bills were 2⅝, ¾ per cent. The quotations for short loans, which were in good request, were 2, 2½ per cent. It does not seem that many applications have yet been made to the Bank of England, but advances will soon be wanted for the customary interval preceding the distribution of the dividends. Some gold was taken for Egypt, and there is a slight reaction in the New York exchange, but it is not expected that this will go far enough to stimulate the export of bullion in face of the unwillingness to part with funds at this period of the year. In Paris money continues in active demand at 3 per cent., and the exchange on London has receded considerably, while as stock has on balance been sold here on French account a further drop in the rate is looked for about the end of the month, when preparations will begin for the Bourse settlement. There is, however, no expectation of a decline to a point which would take gold from this side."

"Forty-five life policies belonging to the shareholders of the City of Glasgow Bank were sold yesterday in Glasgow at the instance of the liquidators. The original value of the policies was £53,208 13s, to which was added £8,706 12s of bonus, making a total of £61,915 5s. The surrender value, as made up by the various companies with which the insurances had been made, was £19,793 11s 10d, and the amount realised was £23,053 8s 9d, or an advance of £3,259 16s 11d. Among the policies still to be sold are those effected on the life of Mr James Morton, which alone amount to a total sum of £129,890."

"A Paraguayan Bondholder writes to ask if something cannot be done for the creditors of that republic, and he suggests that a meeting should be called with the view of sending over a responsible person without delay. If we are not mistaken, our correspondent's wish is in a fair way to accomplishment, steps having recently been taken to send out to Asuncion a most competent envoy, whose name will be shortly announced. To judge from the accounts received by this mail of the improved condition of Paraguay, negotiations could not be commenced at a more favourable time."

The holders of Platino Brazileiro Telegraph shares, and there are many in this market, will be interested in the following report—

"An extraordinary general meeting of the Western and Brazilian Telegraph Company (Limited) was held yesterday at the City Terminus Hotel, to consider a variation in the mode of issuing the debentures. Sir E. W. Watkin, M.P., presided, and said he had undertaken the chairmanship of the company at the request of the leading shareholders, and by the unanimous wish of the Board, on the condition that the shareholders, so far as possible, should be their own mortgagees, to aid the Board in repairing and restoring those portions of the cable which to some extent were defective, and to assist in discharging the liabilities of the company, so that at the earliest possible period the net revenue might be devoted to paying interest on the bonds and dividends on the shares. At present, as they were aware, the net revenue was absorbed by the cost of renewals, and it was obvious that so long as that state of things existed the owners of the £1,400,000 ordinary shares could not expect to receive anything. In a circular he had issued an outline of his project had been made known to the shareholders. He was prepared to take his share of the debentures and he hoped the other shareholders would do the same. Mr. Samuel Mendel had joined the Board, as had Mr Henry Cooke, of Manchester, and with the existing Board they would see that none of the directors had in any way desired to turn their backs on the company. They had given instructions that day to obtain tenders for 400 miles of new cable, which their professional adviser said would be sufficient not only to restore that cable, which ought to be restored immediately, but also to replace with sheath cable the portion of cable not sheathed at present, and which was, therefore, not so eligible. He moved a resolution authorizing the directors to issue consolidated debentures to an amount not exceeding £450,000, to provide for the redemption of all or any portion of the A. B, or C debentures, and for the general purposes of the company. Mr S Mendell seconded the motion, which was carried unanimously. Mr Beattie thought they ought to thank the chairman for the generous spirit in which he had undertaken an undoubtedly onerous duty."

We have received for publication the following letter by an English shareholder of the Nat. Bank—

"Most unusual interest is taken this year as to the special purport and result of the general meeting of shareholders of the above-named institution which is to take place on Monday the 26th inst.

"Firstly the election of two new directors calls for the strictest inquiry as to the conduct and capacity of the retiring ones; for though the shareholders have perhaps no right to dive into the antecedents of men holding public situations, they have certainly a right to know to whose hands their money is entrusted, and therefore if a Bank Director introduces repeatedly clients who are undesirable customers, it is then time for the shareholders to do all in their power to cause such director or directors to be ejected, for fear he or they should repeat those calamitous errors, and endeavour to fill up the vacancy or vacancies by men whose reputation for integrity as well as commercial experience qualifies them in every way to fulfil their obligations with credit to themselves and the Bank. Then again, Bank directors have no right whatever to speculate for the rise or fall of the shares of the institution to which they belong; and, however important it may be for the shareholders to take those subjects into serious consideration, the matter falls into insignificance when compared with the vital point which it now becomes imperative to investigate thoroughly which is the real state of the National Bank.

"On examining last year's balance-sheet, we find innumerable accounts placed as assets which really do not exist and ought to have been carried to the debit of the profit and loss account years ago, just as other commercial institutions have done since the closing of the Oficina de Cambios. Every shareholder in any company whatever likes to know and has a right to know by what tangible security his money is represented. I for one want to know where is the real value of the money I have invested in the shares of the National Bank?

"I would much prefer holding my shares for five years or even ten, if necessary, without receiving one farthing for dividend, to receiving dividends which I know come out of my capital, as no doubt has been the case for years past with regard to this institution. It is an every day occurrence in England for Directors of Companies to call together their shareholders, take them into their confidence, explain their difficulties and troubles; then the shareholders lend a helping hand to surmount them, foregoing everything in the shape of dividend for an indefinite time, in short until such time as the Company really earns money.

"If the Directors of the National Bank were to write off to profit and loss all their losses as the London and River Plate Bank Company recently did in London with Mr Smithers' mistakes, God only knows how much there would be left.

"It is therefore for the shareholders to endeavour to avoid happening to them what happened to those of the Argentine Bank: that is to say, they make a sacrifice for the present by foregoing all dividends until such time as the bank is sufficiently strong and prosperous to pay dividends out of legitimate profits. 'Lo que esta deferido no esta perdido.'

"At the meeting to take place next Monday much valuable information will be obtained from the Directors. In the meantime I subscribe myself, dear Sir,

"Your obedient Servant

"AN OLD SHAREHOLDER."

### Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 80 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,

JOHN J. J. KYLE, Professor of Chemistry.

### Extracts from Testimonials

From] Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rochent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."
